The initial idea when we were briefed on a Trivia Quiz App, was immediately superheroes! Since I was little superhero movies and comic books were the best for me, it made me feel like I can conquer the world and do anything without a doubt. Then after thinking about this theme for a Trivia Quiz App, it came to mind, the fan I am about superhero movies, characters and comics, I do not know the origins, history, fun facts which I missed in scenes. Therefore the idea on this Superhero Trivia theme is to educate those superhero die hard fans, and teach them interesting things they did not know about their superhero rolemodel. The categories that will be present in this Superhero Trivia Quiz App will be history, general, comics and movies. Maybe add DC vs Marvel as well.

I further went on to research the topic on why humans love superheroes and what the psychology behind it is. I came across an article titled “The Psychology Of Why You Love Superheroes” written by Eliza Castile in 2017. The reason I said above for this idea is proven by research that according to “...recent research from Kyoto University in Japan, humans are drawn to heroes from early stages of development”, which means that as a young child we are drawn to these superhero titles (Castile 2017).

## Categories

History

General

Comics

Movies
